This soundtrack is freaking astounding. Even better than the amazingly wonderful game it's coupled with.. it says installed but the music sounds like still same or is it some subtle remix? ye it's good music anyway and i like the game. i don't know where to find the music files or what to do with this soundtrack (noob with music dlc).. An excellent soundtrack, Barry Leitch knocked it out of the park with the original Horizon Chase music and he knocked it out of the park here. Every song from the game is here, with the exception of the original version of the intro which does get used in a few races. Just sit back, jam out and enjoy.
